Summer programs

Our 10-day courses welcome international teenagers including French young people to share daily life in French together in a safe, enjoyable and warm learning environment.

French immersion experience

At FIL, we focus on making participants comfortable with speaking and understanding French while having fun.

FIL's unique approach to teaching French is fun and interactive. Teenagers learn at their own pace during the French workshops (21 hours/stay). Participants will attend courses in small groups of 6 to 8 people at the same level. Our native French teachers conduct learning sessions that are original and creative: interviews, role-playing games, reports, debates, etc. This is the best way to improve French!

At FIL summer camp, teens will speak French all day: "immersion totale". In this French-speaking environment, they can put their French into practice and have plenty of opportunities to express themselves in French. They gain confidence and make noticeable progress.

Throughout their day, FIL campers are guided by native French instructors —all experienced in teaching French as a second language. Participants are supported by our qualified team in their language learning as well as personal matters.

A typical day at FIL is:
